

Annexure 2: Overall Water Balance Equation 2015

Water Credit (million litre #)		Water Debit (million litre)	
Parameter	Value	Parameter	Value
Water savings considered through Direct Seeding of Rice	13865.30	Water consumption considered in manufacturing units (Beverage and Snack Units)	6977.73
Water savings considered through drip irrigation in potato cultivation	1364.35		
Water recharge considered through in-plant rain water harvesting structures	87.58		
Water recharge considered through integrated community water program	4412.51		
Total	19729.74	Total	6977.73
Water Credit > Water Debit			
Water Balance (Positive) in million litre			12752.01

Million Litre = Thousand Cubic Meter
